

ETHOXYLATED NAPHTHOL SULFONIC ACID (ENSA-6)
STANDARD SPECIFICATION SHEET
Chemtech Product Code 03

	<u>Specification Value</u>	<u>Typical Value</u>	<u>Test Method</u>
Appearance at 25°C	: Dark brown, viscous liquid		T-010
Chain Length	: 6.0-6.8	6.4	LH-022
Total Ethoxylated Naphthol & ENSA-6, %	: 70 min.	75.3	LH-022
Moisture, %	: 4 max.	2.4	LH-002
Specific Gravity at 25°C	: 1.25-1.27	1.26	LH-018
Sulfuric Acid, %	: 10 max.	7.5	LH-009
Solubility in Sulfuric Acid, %	: 95 min.	--	LH-011

Standard packaging

Standard 200 litter steel drums with 249,93 kg net and 269,43 kg gross each or 551 lbs net and 594 lbs gross each.

Packing meets and is labelled according to the international legislation required for the transport and storage of this material.

Packing is marked with the standard UN Mark.
